

Ongoing server costs will currently be paid for by the founder in exchange for FRED coins to the equivalent value and amount at 1sat from development costs. This is temporary until the project can support its own costs and is the same as selling on the exchange at 1sat (there is currently no volume to support this).

FREDEnergy FRED proof of pre-mine wallet status

The image displays a wallet interface on the left and four terminal windows on the right, all showing the status of FRED coins. The wallet interface shows a list of recent blocks with columns for height, date, and time. The terminal windows show the following information:

- Terminal 1 (top-left):** Shows the wallet scanning the blockchain and displaying the balance for the 'FRED development' wallet. The available balance is 104,908,007.800900003 FRED.
- Terminal 2 (top-right):** Shows the wallet scanning the blockchain and displaying the balance for the 'FRED marketing' wallet. The available balance is 10,900,000.955457652 FRED.
- Terminal 3 (bottom-left):** Shows the wallet scanning the blockchain and displaying the balance for the 'FRED fredmain' wallet. The available balance is 396,000,000.000000000 FRED.
- Terminal 4 (bottom-right):** Shows the wallet scanning the blockchain and displaying the balance for the 'FRED marketing' wallet. The available balance is 10,900,000.955457652 FRED.

The wallet interface shows the following recent blocks:
